

Young High School upgrade and joint-use library and community facility

Works notification

July 2022

Work is underway at Young High School to deliver a new joint use library and community facility, new learning spaces and general upgrades to school facilities.

Crane installation and operation

As part of main works construction which is currently underway, we will be establishing a crane in the upper quad of Young High School.

The crane installation vehicles will access the site from Campbell Street. Installation and operation of the crane is expected to take place intermittently between 25 July 2022 and 5 August 2022, weather permitting.

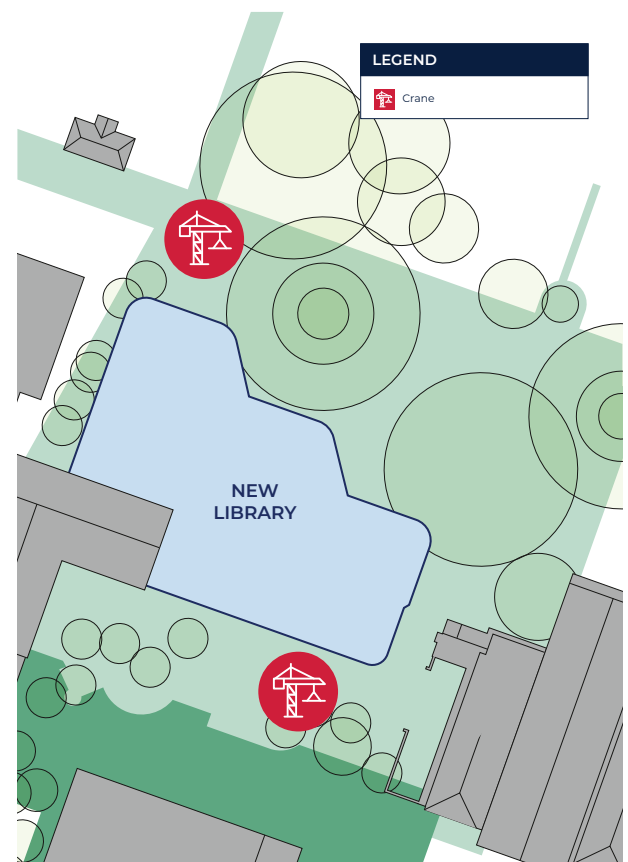

The crane will be secure within the boundary of the construction site, and will not be accessible to any students or school staff.

Deliveries of materials that the crane will move will take place out of school hours to avoid any disruption to school operations.

The crane will assist construction works and the movements of materials on the construction site.

No loads will be lifted over the operational school, the general public or nearby neighbours.

All roads around the school will remain open, with traffic management in place for safety and to mitigate any disruption caused by the crane.

The map shows the locations of the crane at the school.

Carrington Park works

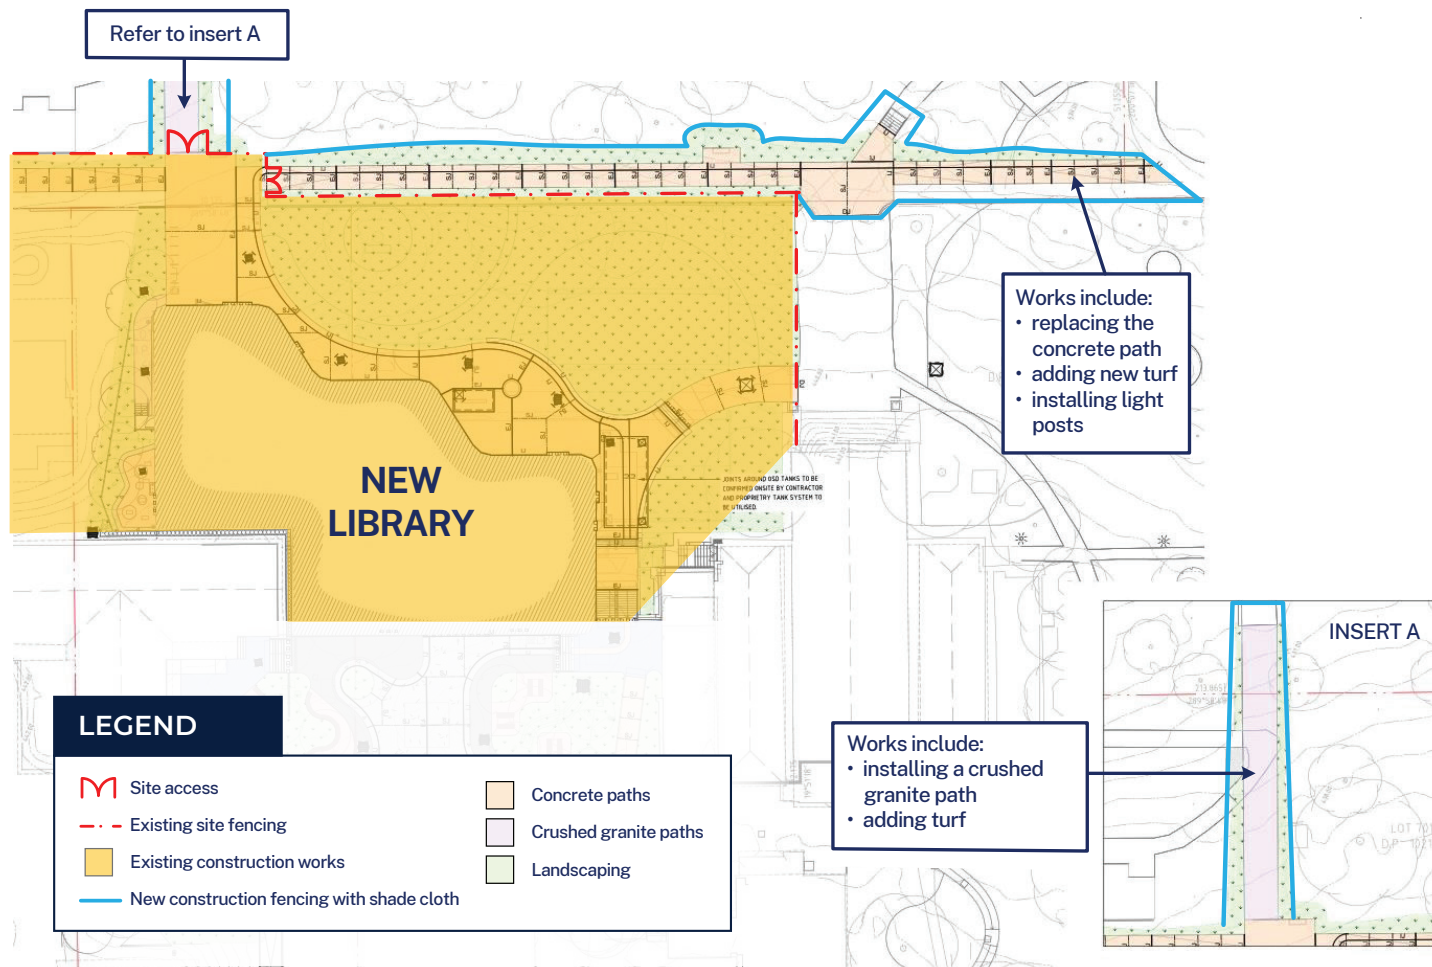

The pedestrian improvement works and landscaping to Carrington Park will be starting from 22 August 2022, weather permitting. In the event of wet weather, the works may be postponed or extended.

Works will involve replacing existing paths, installing new light posts, adding turf and seeding the surrounding area (see site plan overleaf for details).

To ensure the safety of the community, the area for the works will be fenced off. Community members will still be able to access the rest of the park.

The site plan above shows the location and details of the works in Carrington Park.

Working hours

The standard construction hours for this project are 7 am to 6 pm Monday to Friday, and 8 am to 1 pm Saturday. No works will take place on Sunday or public holidays, unless otherwise notified.

We are here to make sure that work is completed safely and efficiently and we will minimise impacts on the community at every opportunity.

Thank you for your patience while we deliver this important school infrastructure.
